Elberfeld, Indiana 47613

Your NPDES permit Notice of Intent letter received on April 13, 2015, requesting modification of the above-referenced general permit coverage, has been reviewed. The materials request the following changes to your coverage:

Existing **Outfall 020A** (latitude 38°, 13', 58.3", longitude -87°, 22', 3.4", discharging to an unnamed tributary to Smith Fork), and existing **Outfall 032** (latitude 38°, 14', 2.0", longitude -87°, 23', 29", discharging to Smith Fork of Pigeon Creek), are to be **changed to Post Mining mine drainage status**;

The request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. We have been in contact with representatives of the IDNR in Jasonville, Indiana who have confirmed that the land tributary to these outfalls is sufficiently reclaimed to be ready for a Post-Mining status. Therefore our office concurs that these requests may be granted. Coverage for the facility will now include all outfalls listed on the first table of Attachment 1 to this correspondence.

Youi also requested in your submittal that existing outfalls 036 and 038 be changed to a Post- Mining status. In addition existing Outfall 004 was to be dropped from coverage. However representatives of the DNR have advised us that they could not support these changes at this time. Therefore our office must deny these requests.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-7 using the forms that were sent to you previously. Should you need additional copies of this form it is also available on the internet at the following web site:

Mr. Jeffrey Olyphant

<http://www.in.gov/idem/5104.htm>

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at (317) 232-8670.

Post mining drainage status outfalls report only once per quarter, thereby necessitating changes to this status becoming effective on the first of the next reporting quarter. Therefore these modifications shall become effective on **July 1, 2015**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-7 for all remaining outfalls remains effective, and will expire on **June 30, 2019**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
